## OPEN-SOURCE PROJECTS

### PROJECT MATCH

**MAR.2018 - CURRENT**

Project Match helps match programmers and designers to projects that interest them.

- + Role: Project Manager, designer, and programmer in a remote team of 4.
- + Project Match is a full stack web app built with MongoDB, Express, React, NodeJS, and TypeScript.
- + Implemented git and git pull request workflow to prevent merge conflicts and facilitate code reviews.
- + Working primarily on the front-end using React/Redux in order to prevent redundant code and maintain state.
- + Coded the User and Project backend API routes and associated test units.
- + Used CSS pre-processor such as SASS to oversee project aesthetics and responsive design strategies for a cohesive user experience.

## PROFESSIONAL EXPERIENCE

### ARCHITECTURAL DESIGNER

**OCT. 2014 - OCT.2017**

*Loescher Meachem Architects Inc., Los Angeles, CA*

- + Projects include a 10,000 SF Fred Segal multi-phase retail project, 5,000sqft KITH retail TI, Valley Outreach Synagogue, a Phillip Lim retail store and several advertising agency headquarters stationed in Southern California and Dallas, TX.
- + Coordinate closely with project manager, consultants and subcontractors to create Permit and Construction sets. Coordinated with the city through plan check correction process through to getting the permit.
- + Work side by side with the project manager in construction administration duties such as processing submittals, RFIs, and job walks.
- + Increased efficiency of rendering workflow by creating streamlined materials, program settings, and implementing a local render farm. These changes decreased rendering time from 5 hours to approximately 40 minutes per image.
