SKILLS

FRONT-END

- + ReactJS
- + HTML/CSS/SCSS
- + Javascript
- + Apollo / GraphQL

BACK-END

- + Express
- + MongoDB
- + NodeJS
- + GraphQL

DESIGN

- + Adobe XD
- + Photoshop
- + Illustrator
- + InDesign

PROFESSIONAL EXPERIENCE

UI/UX DESIGNER & FRONT-END WEB DEV

JULY.2018 - CURRENT

Chingu - an educational startup which aims to build a coding platform in which programmers elevate their technical and professional team skills by building a project in 8 weeks with a remote team.

- + Sole designer to mockup and implement custom styles and page layouts on the entire platform.
- + Work as part of a 3-person front-end team to code the platform using React and interface with the Chingu API using Apollo / GraphQL.
- + Successfully launched and running a Beta cohort with a test group of 100 users.
- + Implemented a series of form question/answer components which include standard question types like text as well as custom ones such as a drag-drop skill selector.
- + Implemented a Ticket Box for user-submitted help/bug/suggestion tickets.
- + Created a flexible project card component to handle the numerous project card types.
- + Implemented the user interface for a team-sort feature. Uses an interactive D3 force-graph which renders user nodes in circle sizes dependent on match-score, drag-drop area to pull users into team cards and set team formation, and an interactive table that displays all applicant information for each user node.

ARCHITECTURAL DESIGNER

OCT. 2014 - OCT.2017

Loescher Meachem Architects Inc., Los Angeles, CA

- + Projects include retail stores and several advertising agency headquarters.
- + Coordinate closely with numerous parties to achieve city-approved Permit and Construction sets.
- + Work side by side with the project manager in construction administration duties.

FORMAL EDUCATION

UNIVERSITY OF CALIFORNIA, BERKELEY 2010 - 2014

B.A. in Architecture.
Minors in Sustainable Design
and City & Regional Planning

OPEN-SOURCE PROJECTS

PROJECT MATCH [BETA]

MAR.2018 - JULY.2018

Project Match helps match programmers and designers to projects that interest them.

- + Full stack web site built with MongoDB, Express, React, NodeJS & TypeScript.
- + Worked primarily on the front-end using React/Redux.
- + Coded the User and Project backend API routes and associated test units.
- + Sole designer to mockup and implement custom styles and page layouts.
