## SKILLS

### FRONT-END

- React
- Javascript
- TypeScript
- Apollo / GraphQL
- HTML/CSS/SCSS
- Responsive Design

### BACK-END

- AWS
- Node
- PostgresQL
- Elixir

### DESIGN

- UI / Visual Design
- Rapid Prototyping
- Adobe XD
- Photoshop
- Illustrator

## FORMAL EDUCATION

**UNIVERSITY OF CALIFORNIA, BERKELEY**  
B.A. in Architecture.

## PROFESSIONAL EXPERIENCE

### SOFTWARE DEVELOPER

**FEB.2019 - CURRENT**

8th Light, Los Angeles, CA

- Implement features in React and TypeScript, design system with Styled Components and Storybook, and establish React testing patterns for a financial platform.
- Act as Lead Developer to build a custom survey web app in React and JavaScript with international language support for a COVID19 non-profit group. Work also includes architecting and implementing a data pipeline utilizing AWS (Firehose, Lambdas, Glue and Athena) services to transform and prepare survey results for data visualizations in Tableau.
- Work in a core team to write a new email service adapter and queuing architecture with Node / Redis for a large media company.
- Increase maintainability for client's DevOps & Engineering teams by transitioning multiple existing ETL jobs from Talend to a new AWS Batch / Cloudwatch architecture written in Node.
- Implement features and improve test coverage for an e-commerce platform. Integrate hard-coded page layouts with a CosmicJS CMS + GraphQL API, and adjust the API to provide this data more easily. Add tests to the React codebase to prepare the platform for an impending public launch.
- Reduce test runtimes by introducing a new React testing strategy for a health care sharing platform. Helped rewrite an API that coordinates data across a suite of distributed apps built with JavaScript and C#/Nancy.

### FRONTEND DEVELOPER & UI/UX DESIGNER

**JUL.2018 - MAR.2019**

Chingu - Remote Educational Startup

- Reduce team sorting time by 50% by implementing a D3 data visualization driven workflow for sorting users into teams.
- Increase ease of development by creating reusable input elements and standardized styles for a data-driven form creator in React.
- Design and build Chingu's web presence by ideating user features and implement them as part of a 3-person team using React and Apollo / GraphQL.
- Establish company aesthetic and branding by prototyping and implementing styles, responsive design, and layouts for the entire platform using HTML, CSS Grid, and SCSS.

### FULLSTACK WEB DEVELOPER

**NOV. 2017 - JUN.2018**

Freelance

- Complete two fullstack team-projects as Project Manager, Developer, and Designer.

### ARCHITECTURAL DESIGNER

**OCT. 2014 - OCT.2017**

Loescher Meachem Architects Inc., Los Angeles, CA

- Coordinate closely with numerous parties to achieve city-approved Permit and Construction sets for retail and design headquarter projects.
