PROFESSIONAL EXPERIENCE

UI/UX DESIGNER & FRONT-END WEB DEV   JULY.2018 - CURRENT
Chingu - startup for a project-building coding platform.

+ Sole designer to mockup and implement custom styles and page layouts on the entire platform.
+ Part of a 3-person team using React and Apollo / GraphQL to build the front-end.
+ Launched and running a Beta cohort with a test group of 100 users.
+ Improved code reuse and ease of development by implementing a standard series of form question/answer components which include standard question types as well as custom ones such as a drag & drop skill selector.
+ Provided a funnel for user submitted help/bug/suggestion tickets by implementing a floating ticketbox entirely in React.
+ Reduced team sorting process from a few days to a few hours by using D3 data visualization, drag-drop user interface, and an interactive table to quickly find and sort similar users into teams.
